***Approval of Minutes***

**§4.** Approval of minutes from February 2016 and March 2016 board meetings was next on the agenda for consideration. Motion to approve the minutes was made by Director Mesa and seconded by Director Espaldon. The motion was unanimously approved.

***Communications***

**§5.** The next item on the agenda was Communications.

Deputy Administrator, Mana Silva Taijeron informed the Board that the GVB has requested that GEDA participate in the Pacific Asia Travel Association's (PATA) Annual Summit as a gold sponsor for their event. This will draw key people in the Asia and Travel industry to Guam, and should be good for investment for GEDA to be involved as we are looking at developing the tourism and hotel industry on Guam. GVB has

confirmed that there will be several hotel investors who will be attending and are looking at Guam as an investment opportunity. The gold sponsorship package is \$10,000.00 and GEDA is asking that the Board consider, as GVB was one of GEDA's big sponsors for our economic symposium held in 2015. Bernice Torres, Administrative Service Division Manager was to confirm if funds are available in our marketing budget to support GVB for this event. Director Mesa made the motion to approve the gold sponsorship for PATA if funds are available, Director Wu seconded the motion. The motion was unanimously approved.

## B. Commitments

Manhita Farms has enclosed in their application letters of commitment from both Pacific Produce Corporation and Payless Supermarkets to purchase eggs and produce from the farm upon operation. They have also indicated to GEDA that they have an additional commitment from International Distributors, Inc. to purchase products from Manhita Farms.

## 4. Public Hearing Comments

A public hearing on Manhita Farms, LLC's application was held on February 17, 2016 in the GEDA's main conference room. The hearing commenced at 10:05 AM. In attendance along with GEDA staff were representatives from Manhita Farms, LLC. No members of the public attended to provide comment on the application. The sign in sheet from the hearing is attached to this analysis. The hearing adjourned at 10:15 AM.

## 5. Findings:

### 1. Application

#### a. Does the project meet eligibility requirements (§58104 et. seq., QC Law) – Yes

*Eligibility: Agriculture*

The application is being processed under a Limited Liability Corporation (LLC) that will engage in the industry of agriculture. The company plans to build an egg-laying farm capable of producing 2.6 million dozens of eggs per year. The company will also grow and distribute several types of produce to help reduce the island's dependence on imported goods.

#### b. Promotion of General Economic Improvement (§58105) – Yes

- Project will provide and additional 15-20 jobs to the local community and will promote a new type of agriculture business to the island.
- Will be the largest local facility for producing eggs.

#### c. Replace Imports (§58105.2) – Yes

According to a GEDA study, an estimated 350,000 dozen eggs are imported monthly into Guam. Currently, Manhita Farms has received letters of commitment from island businesses to buy all their eggs as well as produce from Manhita Farms. These commitments will help reduce the amount of eggs and produce imported into Guam.

More importantly, each and every dollar spent on produce and eggs imported into Guam is a dollar that is exported from the island. The proposed egg laying facility and commercial farm will reduce the amount of money wholesalers and supermarkets send off island by:

- i. Hiring local employees for labor, management and administration. This will create more disposable income in the economy as well as increased income taxes and withholding taxes.
- ii. Encouraging local buyers to purchase locally made eggs and produce. Instead of local markets, hotels and restaurants being forced to purchase produce and eggs from off island suppliers, purchasing locally from Manhita Farms will ensure that monies made on Guam stay on Guam.

The increased circulation of money in Guam caused by the farm, in both private wages and tax revenue will create a multiplier effect that will grow the local economy and expand the tax base simultaneously.

#### d. Economic Activity (§58105.5) – Yes.

Manhita Farms' proposal is one of the largest agricultural projects in recent history. In addition, the farms is expected to be almost entirely "self sustaining" and plans to leverage all waste products and transform them either into energy to run the farm or a recycled product. This presents a new and exciting economic model for Guam. Additionally, the project aligns with the current

Administration's efforts to reduce imports and increase sustainability and economic growth through agriculture activities.

- e. **Letter of Intent submitted: - Yes.**  
Received on December 9, 2015
  
- f. **QC Application Submitted: - Yes.**  
Submitted application on January 20, 2016
  
- g. **Public Notice of Submitted Application**  
Printed in Guam Daily Post on January 28, 2016

2. **Specific findings on the application (§58109, QC Law):**

a. **Project Risks and challenges:**

*Potential odor to neighboring real estate owners* – Manhita Farms has indicated in its application that they will be utilizing the manure and other waste products in a controlled way to generate energy for the farm as well as composting. This is not only as a way to increase revenue, but also to minimize potential odors and minimize waste. Since they will be utilizing the manure, it will not sit and generate foul odors. Additionally, Manhita Farms has indicated that the hen houses will be enclosed and ventilated, which will further reduce potential odors.

b. **Importance to the economy and the official policy of the government:**

The agriculture and egg farm will result in the creation of at least 15 new jobs earning an estimated \$561,000 in gross wages in year one alone. The farm will produce, on average, 2.6 million dozens of eggs upon 18 months of operation, as well as other agriculture products, such as watermelon, tomatoes, and honeydew.

According to Manhita Farms' application, approximately 90% of produce currently consumed in Guam arrives via ocean freight. Also, produce that is shipped via ocean freight has a 21 to 28 day total supply chain lead-time, which compromises freshness and nutrition.

This will be the largest facility on Guam for eggs, fresh fruits, and fresh vegetables. It will reduce total supply chain-lead time for multiple local businesses, including hotels, restaurants, schools, hospitals, and supermarkets, among others.

Manhita Farm's application will reduce the amount of imported eggs, increase circulation of money in our local economy and will provide the people of Guam a higher quality product. It will help stimulate Guam's agriculture industry and will highlight Guam as a viable location for large scale agriculture.

## 6. Recommendations:

Based on the review of the facts on this case, the recommendation is to **APPROVE** the Qualifying Certificate Application 16-01-01 with the following benefits and additional conditions.

### Recommended Benefits for QC:

The following benefits will be awarded to Manhita Farms, LLC as per 12 GCA 58 for the periods specified.

Nature of Tax	Periods Requested	Percentages Requested
Corporate Income Tax	Twenty (20) years	Seventy-five percent (75%)
Real Property Tax*	-	-

*\*Pursuant to 11 GCA 24 §24401(f), property used in active farming for at least eight (8) months out of the year are exempt from real property taxes. Because of this, real property tax benefits are not included in Manhita Farms LLC's Qualifying Certificate.*

**Additional Conditions:** In addition to the standard requirements of the QC law, the following are additional conditions of approval as per the QC Law.

1. **Community Contribution** –
  - a. Manhita Farms agrees to make an annual community contribution as a condition receiving QC benefits. Manhita Farms shall contribute the sum total of 5% of all rebates and abatements for each tax year, but no less than \$5,000 annually in the form of a cash contribution to GEDA aimed towards activities to stimulate local economic development. Manhita Farms shall remit to GEDA the community contribution for each year that the QC is active.
  - b. Manhita Farms also agrees to provide annual training/internship opportunities to island residents in partnership with AHRD, the University of Guam and others.
  
2. **Agreement to follow jurisdiction of Compliance Division** – Manhita Farms agrees to follow the jurisdiction of GEDA's Compliance Division and ensures that the project shall operate as an egg laying facility and agriculture farm for the entire term of the QC contract. Failure to comply with the rules and regulations of GEDA's compliance division will result in the loss of benefits for that year and may result in revocation of the QC if compliance is not recovered. Manhita Farms also agrees to remit all QC monitoring fees (\$500 annually) as per the QC law as a condition of compliance. Manhita Farms also agrees to follow jurisdiction of Compliance Division for full length of QC, which is 20 years.
  
3. **Conditions contained in QC Law** – Manhita Farms agrees to the following conditions as identified in the QC law:
  - a. Beneficiary shall submit a plan for a management training program for the approval of the Authority. The plan shall establish a management training program through which the Beneficiary shall have as managers and officers residents of Guam who are United States citizens or permanent residents of the United States. **(§58116)**
  
  - b. On the effective date of the Qualifying Certificate and all times thereafter, Beneficiary shall at all times employ a total work force of not less than the minimum full-time equivalent number established by GEDA and as set out in the Qualifying Certificate. At all times, the work force of the Beneficiary shall meet the following minimum requirements:
    - i. At least seventy-five (75%) of the Beneficiary's non-managerial employees shall be United States citizens or permanent residents of the United States; and
    - ii. After the expiration of three-fourths (3/4ths) of the period of the Qualifying Certificate or ten (10) years, whichever is sooner, the Beneficiary shall satisfy the seventy-five (75%) employment requirement for both management and non-management employees.
    - iii. The Authority shall be the sole judge of whether a Beneficiary's employee is management or non-management. **(§58117)**
    - iv. As indicated in their application, Manhita Farms agrees that minimum workforce of no less than fifteen (15) full-time equivalent employees shall be maintained throughout the duration of the Qualifying Certificate.
  
  - c. No resident employee of a Beneficiary shall be paid at less than the prevailing wage rate (as set by the Department of Labor) nor shall such employee be laid off work nor have his or her

workweek reduced to less than forty (40) hours in order to create employment for employees who are not United States citizens or permanent residents of the United States. **(§58118)**

- d. A Qualifying Certificate or the benefits thereunder may not be transferred, assigned or conveyed to another person, firm, partnership, or corporation without the written permission of the Authority. **(§58121)**
- e. The Beneficiary of a Qualifying Certificate must furnish monthly written reports to the Authority beginning thirty (30) days after the date of the issuance of the Qualifying Certificate. Said reports must include, but are not limited to, financial, employment and payroll data. All such monthly reports shall be treated as confidential by the Authority. **(§58123)**
- f. Each Qualifying Certificate, shall require a Beneficiary to invest within Guam no less than fifty percent (50%) of any taxes rebated or abated under §§ 58127 and 58128 of this Article for a period of five (5) years following the rebate or abatement. A Beneficiary shall report all such investments to the Authority. **(§58142)**

- 4. **Non Compliance** – Manhita Farms agrees that in the event that it shall fail to comply with any of the terms and conditions of the QC as determined by GEDA, it shall lose the tax benefits for the calendar year in which the failure occurred. Manhita Farms also agrees that if it fails to correct errors after notice from GEDA or fails to come into compliance within twelve (12) months after notification, the QC shall be void and of no further force or effect and the Department of Revenue and Taxation (DRT), as agent for the government of Guam, shall obtain repayment from Manhita Farms to the Government of Guam all tax exemptions, rebates, and/or abatements it claimed pursuant to the QC.

## 7. Effective Date

This Qualifying Certificate shall become effective upon the final approval of the Governor of Guam with the recommended approval by the Board of Directors. Manhita Farms and GEDA agree to a date of January 1, 2018 for the commencement of any tax rebates and/or abatements.

The second item on the agenda was the Memorandum of Agreement between DISID & GEDA. Director Espaldon moved to approve the item, Director Mesa seconded the motion. The motion was unanimously approved.

April 21, 2016

To: GEDA Board of Directors

From: Administrator

RE: Memorandum of Agreement between the Department of Integrated Services for Individuals with Disabilities (DISID) and GEDA

**BACKGROUND:**

In the interest of pursuing the development of Lot 5138-2-R3-NEW-1, commonly known as the former Voc Rehab, located across JFK High School in upper Tumon along Route 1, Marine Corps Drive, GEDA desires to enter into a

Memorandum of Agreement (MOA) with the Department of Integrated Services for Individuals with Disabilities (DISID) with the intent of establishing a partnership to capitalize on GEDA's financing, development and property management capabilities along with DISID's property asset. With a formalized partnership, GEDA will be able to develop this property to further accomplish the respective missions of both agencies.

**ANALYSIS:**

Considering DISD's need to better service its clients, it has pursued development of a building on the above mentioned property however, all previous efforts to do so have been unsuccessful. As such, GEDA finds that it may be able to assist DISID in this endeavor while also finding potential long term mutual benefits. This partnership in development is anticipated to begin design and construction of an office building for both agencies, via upcoming grant opportunities already in discussions for FY 2017 with the Economic Development Administration under the U.S. Department of Commerce, which will eliminate office lease/rental expenses that continue to burden both agencies' respective operating budgets. DISID's mission of training individuals with disabilities for employment also dovetails with GEDA's mission of overall workforce development and to spur economic activities. With even further development of the property, both GEDA and DISID may also find additional revenues to augment respective operations and program services.

**RECOMMENDATION:**

GEDA staff recommends that the Board of Directors authorize the Administrator to execute an MOA with DISID to enter into a strategic relationship to explore the various options of property development to include, but not be limited to, building a home for both agencies, other highest and best use of DISID's property along with other initiatives that will result in mutual benefit for both agencies and further economic activity for our local community.
